

iFACE 700

Multi-Bio 700 multi-media identification access control terminal combines ZKSoftware's latest ZEM800 Platform with ZK face v5.0 algorithm. The iFace high speed Multi-Bio Processor and built-in high definition infrared camera enables user-identification even in dark environments. All operation of Multi-Bio 700 are conveniently performed on its 3 inch TFT color touch screen. Multi-model communication includes RS 232/485 or TCP/IP.

Presentation :

- . Identification methods include Face, FingerPrint/RFID and/Or PINs.*
- . Elegant ergonomic design.*
- . 3" TFT touch screen is user-friendly and very intuitive.*
- . Contact relays for door access control.*
- . Infrared optical system enabled user-identification in poorly lit environment.*
- . Built-in contact for 3rd party electric lock door sensor, alarm, exit button or bell.*
- . Wiegand output for connections to 3rd party access control panel.*
- . Wiegand input for connections with external reader.*
- . Fingerprint capacity 1500, face 300, transaction capacity 10.000*
